How to Use This Notebook

Capture facts first. Separate observations, evidence, and analysis.

1

SECURE & DOCUMENT

Address immediate safety needs and preserve scene conditions before they change.

2

INTERVIEW

Use open-ended questions. Record the person's sequence and terminology accurately.

3

BUILD THE TIMELINE

Reconcile statements, records, equipment state, and communications.

4

ANALYZE SYSTEMS

Consider barriers, equipment, planning, work conditions, and human performance influences.

5

ACT & VERIFY

Assign corrective actions with owners, dates, and effectiveness verification.

External / Regulatory Notifications

PERSON / AGENCY	TIME	METHOD	BY WHOM

REFERENCE

- ☐ Medical care / first aid addressed
- ☐ Emergency response activated if needed
- ☐ Operations placed in safe condition
- ☐ Hazardous energy controlled
- ☐ Area barricaded / access controlled
- ☐ Leadership / HSE notified
- ☐ Environmental release controlled
- ☐ Evidence preserved before cleanup

- ☐ Overall scene photographed
- ☐ Equipment positions recorded
- ☐ Controls / indicators photographed
- ☐ Measurements completed
- ☐ Weather / lighting documented
- ☐ Witnesses identified
- ☐ Physical evidence tagged
- ☐ Equipment held from repair pending release
