Open Narrative

Use open-ended, non-leading questions and record the person's own words where practical.

Tell me what happened from the beginning.

Grid area for Open Narrative.

Before the Event

Use open-ended, non-leading questions and record the person's own words where practical.

What was happening before the event? What was the plan?

During the Event

Use open-ended, non-leading questions and record the person's own words where practical.

Walk me through the event step-by-step. What did you see, hear, or feel?

After the Event

Use open-ended, non-leading questions and record the person's own words where practical.

What happened immediately afterward? What actions were taken?

Work Conditions

Use open-ended, non-leading questions and record the person's own words where practical.
